

# Integral Indefinida

Bit Planet

Solución  $\int \cot x \, dx$

$$= \int \frac{1}{\tan x} \, dx$$

$$= \ln |\tan x| + C //$$

$$= \ln |\sec x| + C //$$

$$* \cot = \frac{1}{\tan x}$$

$$* \int \frac{1}{x} \, dx = \ln |x| + C$$
